NOTE ON THE CONTENT OF THIS DOCUMENT

This document contains emergency information as well as emergency funding opportunities for scholars and students, artists and cultural workers, journalists, lawyers, and human rights activists at risk.

Understandably, most available funding opportunities focus on the vast number of Ukrainian people who are affected by the war. The document includes more opportunities for students and academics than for cultural workers from other domains. However, we make sure to also include emergency opportunities for people at risk from outside academia. In addition, we include emergency information and opportunities for people from Belarus and Russia who risk or face political persecution. Under each entry, you will find information on who is eligible to apply.

The document contains separate categories for specific risk groups. In the interactive index, you can click on an entry which immediately forwards you to the right section in the document. The titles of all entries include a hyperlink which forwards you to the website of the funding opportunity.

Before applying, please visit the website of the opportunity you are interested in as information on deadlines or application procedures might have changed.

If you see additional opportunities that we could add to the document or any mistakes, feel free to contact us at universityofneweurope@protonmail.com and we will add/correct the information as soon as possible.

II GENERAL INFORMATION ON SUPPORT FOR RUSSIANS AND BELARUSIANS AT RISK

Emergency information and contacts for leaving the Russian Federation

This website gives an overview of emergency information and contacts for people leaving the Russian Federation. It is frequently updated.

Emergency information for leaving the Russian Federation by land

- Через Ивангород-Нарву: при наличии гражданства ЕС, российского паспорта с ЕС ВНЖ, российского паспорта с ЕС визой (что уже редкость, но вдруг), сертификата о вакцинации, включая Спутник, или негативного теста. Эстония, кстати, визы даёт и продолжает давать и отнимать не грозится (говорят, уже не даёт, надо проверять). Внимание: для россиян с визами проблема не со въездом в Эстонию, а с выездом из России, Россия в режиме старомодной уже пандемии не разрешает выезд без оснований. Основанием может быть лечение (покупается пакет на два дня на лечение в санатории Эстонии и выезжается) и ещё пара оснований. Но лечение – самый лёгкий и уже народом отработанный.

- По поводу выезда граждан других государств – сегодня в автобусе СПб-Таллин были в основном люди с европейскими паспортами, был и американский один. Все прошли, никто не остался. Ехать можно или автобусом Luxexpress до Таллина или автобусом, маршрутками, электричкой и такси до Ивангорода и там пешком через мост в Нарву и дальше поездом или автобусом до Таллина. В Ивангороде от автовокзала до КП идти недалеко и под горку.

- Ажиотажа на границе нет, все спокойно и штатно. В ФБ есть очень полезная группа «Граница Нарва-Ивангород», там все знают и все подскажут. Там же в группе по поиску можно найти телефоны Ивангородской пограничной службы и задать вопрос, можно ли выйти в том или ином случае. Они работают и спокойно и информировано отвечают. В группе же есть расписание маршруток, контакты такси, подсказки про лечение как повод выехать и много всего другого.

- Также можно выехать на Аллегро в Финляндию, но только гражданам Финляндии и РФ (но как с ВНЖ, так и с визами!). Российская сторона, как я поняла, выпускает, финской стороне нужен
сертификат о вакцинации признанными в Европе вакцинами ИЛИ гуманитарное основание для выезда. Насколько оно достаточное, решает пограничник. Если недостаточное, человека высаживают на ближайшей станции, и он едет обратно в СПБ. Есть группа в телеграме (Граница Россия-Финляндия), где можно все найти и все мониторят. При этом на Аллегро сейчас проблема с билетами. А эстонская граница, если надо оперативно, на данный момент работает хорошо.

### Scholars at Risk Network – Remote Fellowships

- **Deadline:** n.n.
- **Eligibility:** Universities within the Scholars at Risk (SAR) network have historically created positions of temporary academic refuge on campus for SAR scholars, creating over 1200 positions to date and allowing scholars to leave the country in which they face risk. However, not all SAR scholars are able to leave their country and travel for a position due to government or other restrictions. For example, starting in 2016 the Turkish government cancelled the validity or revoked the passports of thousands of scholars in the country, preventing them from leaving after they were dismissed from their academic positions. After learning about the travel restrictions faced by scholars from Turkey, several universities within our network mobilized to provide opportunities for those SAR scholars who cannot travel (many times in addition to hosting scholars on campus).

- **Funding:** Remote fellowships can be paid or unpaid. The universities created remote fellowships through which a SAR scholar can:
  - receive a university email address;
  - access library and database resources through this email address/university affiliation;
  - publish work using the university’s affiliation;
  - in some instances, connect with mentors or teach remote classes at the host university; and
  - re-engage with academia after being pushed outside the university space, sometimes for years.

- **How to apply?** Any universities interested in learning more about remote opportunities for SAR scholars are invited to contact scholarsatrisk@nyu.edu

**Visegrad Scholarship at the Open Society Archives**

- **Deadline:**
  - 25 July 2022
  - 15 November 2022
- **Eligibility:** The current call is part of a reflexive-research program at OSA interested in connecting past issues related to oppressive regimes, censorship, violence and information manipulation to current phenomena. We would like to assess the potential of a genealogical project linking the contemporary epistemic and political crisis of democracy to past modes of inquiry and activism.

  In the context of the current invasion of Ukraine and the ongoing tragic war, many analysts have claimed that we face the real end of (or the confirmation) of the Cold War and its dichotomies. What we witness would be the outright confrontation between civic liberalism and autocracy, or the “West” and the “East”. According to Stephen Kotkin, even if post-communist societies have changed, a military-police dictatorship in some former satellite countries is still fighting a “West” seen as an enemy, and this has the reverse consolidating effect on the West which re-emerged and stood up against Putin.

  We invite historians, researchers, political scientists, sociologists, and socially engaged artists to reflect on the Lessons from the Cold War by taking cues from the Blinken OSA collections.

- **How to apply?**
  - We seek to promote exchanges among people with backgrounds in the arts, humanities and social sciences in the way they think through and about archives while being concerned with current problems. From this point of view, the invitation is not only addressed to scholars working specifically on Cold War topics, but to all those interested in theories of knowledge, who would use OSA documents as props for larger reflections and activist concerns.
  - The twenty grants of 2.700 euro each are designed to provide access to the archives for scholars, artists, and journalists, and to cover travel to and from Budapest, a modest subsistence, and accommodation for a research period of eight weeks. Stipends for shorter periods are pro-rated.
○ Applicants, preferably but not exclusively, from a V4 country, may be researchers, students after their second degree carrying out research, or artists, journalists, academics, or both.
○ Scholars at risk from war zones as well as refugees of conscience (scholars fleeing authoritarian regimes) are especially invited to apply.

- The Application letter, C.V., the Research description/plan, the copy of a language exam certification and the Referees’ contact information should be sent by email to Katalin Gadoros at gadoros@ceu.edu.

State of the Art – Open call for a virtual Kunsthalle

- **Deadline:** 30 June 2022
- **Eligibility:** The war in Ukraine has devastating consequences, destroys livelihoods and attempts to destroy the cultural identity of Ukraine and its citizens. These dramatic and frightening developments in the cultural region of Eastern Europe provide an urgent reason to address the situation of cultural workers and artists. Together with the Austrian Federal Ministry for European and International Affairs and in the spirit of the already established prize for “Digital Humanism”, we are inviting artists, creatives, and activists from the Ukraine and beyond who are at risk politically and do not have the human right of freedom of speech,
to submit their works and projects. This initiative is aimed at creatives from the Ukraine and beyond to provide concrete financial support and visibility artists living in oppressed political systems. But it also wants to take the urgency of the drastic Ukrainian situation as a starting point to ask the global question of where else political influence and aggression are preventing artists from taking their role for and in society. Artists, creatives, curators, writers, critics, scientists, entrepreneurs, associations, public institutions, NGOs, or private enterprises (not limited to), no matter if individuals or groups, can enter the open call. Submission can be made either personalized or anonymously, but we require one contact email address. Commercial or propaganda projects are not eligible for the competition. Click here for examples of projects that can be submitted.

- **Funding:**
  - An international board of experts, consisting of renowned personalities from the international media art and curatorial world, representing international institutions, will not only make a qualitative selection, but also provide the social contact opportunities to advance the careers of the artists.
  - The 15 winning projects will be presented in the virtual Kunsthalle, curated by the invited experts. All other works will be presented on the website of Ars Electronica, linked to the archive. The virtual Kunsthalle, an online documentation and action space is freely accessible during the festival and beyond, inviting international experts to explore the works.
  - The Festival TV Channel will highlight the winners of the open call. Curated lectures and talks, artistic presentations and surprising interventions will be live-streamed through the channel and freely accessible online via the festival website and online exhibition space.
  - The curators as well as the selected artists are invited to visit us in Linz and to actively participate in the festival program. The ones that cannot join us will be part of the program through hybrid and digital media. Experienced moderators will guide through the program.
