NOTE ON THE CONTENT OF THIS DOCUMENT

This document contains emergency information as well as emergency funding opportunities for scholars and students, artists and cultural workers, journalists, lawyers, and human rights activists at risk.

Understandably, most available funding opportunities focus on the vast number of Ukrainian people who are affected by the war. The document includes more opportunities for students and academics than for cultural workers from other domains. However, we make sure to also include emergency opportunities for people at risk from outside academia. In addition, we include emergency information and opportunities for people from Belarus and Russia who risk or face political persecution. Under each entry, you will find information on who is eligible to apply.

The document contains separate categories for specific risk groups. In the interactive index, you can click on an entry which immediately forwards you to the right section in the document. The titles of all entries include a hyperlink which forwards you to the website of the funding opportunity.

Before applying, please visit the website of the opportunity you are interested in as information on deadlines or application procedures might have changed.

If you see additional opportunities that we could add to the document or any mistakes, feel free to contact us at mentoring@science-at-risk.org and we will add/correct the information as soon as possible.

- Через Ивангород-Нарву: при наличии гражданства ЕС, российского паспорта с ЕС ВНЖ, российского паспорта с ЕС визой (что уже редкость, но вдруг), сертификата о вакцинации, включая Спутник, или негативного теста. Эстония, кстати, визы даёт и продолжает давать и отнимать не грозится (говорят, уже не дает, надо проверять). Внимание: для россиян с визами проблема не со въездом в Эстонию, а с

Выездом из России, Россия в режиме старомодной уже пандемии не разрешает выезд без оснований. Основанием может быть лечение (покупается пакет на два дня на лечение в санатории Эстонии и выезжается) и ещё пара оснований. Но лечение – самый лёгкий и уже народом отработанный.

- По поводу выезда граждан других государств – сегодня в автобусе СПб-Таллин были в основном люди с европейскими паспортами, был и американский один. Все прошли, никто не остался. Ехать можно или автобусом Luxexpress до Таллина или автобусом, маршрутками, электричкой и такси до Ивангорода и там пешком через мост в Нарву и дальше поездом или автобусом до Таллина. В Ивангороде от автовокзала до КП идти недалеко и под горку.
- Ажиотажа на границе нет, все спокойно и штатно. В ФБ есть очень полезная группа «[Граница Нарва-Ивангород](#)», там все знают и все подскажут. Там же в группе по поиску можно найти телефоны Ивангородской пограничной службы и задать вопрос, можно ли выйти в том или ином случае. Они работают и спокойно и информировано отвечают. В группе же есть расписание маршруток, контакты такси, подсказки про лечение как повод выехать и много всего другого.
- Также можно выехать на Аллегро в Финляндию, но только гражданам Финляндии и РФ (но как с ВНЖ, так и с визами!). Российская сторона, как я поняла, выпускает, финской стороне нужен сертификат о вакцинации признанными в Европе вакцинами ИЛИ гуманитарное основание для выезда. Насколько оно достаточное, решает пограничник. Если недостаточное, человека высаживают на ближайшей станции, и он едет обратно в СПб. Есть группа в телеграмме ([Граница Россия-Финляндия](#)), где можно все найти и все мониторят. При этом на Аллегро сейчас проблема с билетами. А эстонская граница, если надо оперативно, на данный момент работает хорошо.

Dutch Foundation for Literature – Support for Ukrainian and Russian Artists in the Netherlands

- **Deadline:** 15 November 2022
- **Eligibility:** The Dutch government has announced that it will allocate 1 million euros to support Ukrainian and Russian artists who were forced to flee their countries after the Russian attack on Ukraine and are living in the Netherlands. This project is financed by the Ministry of Education, Culture and Science and the Ministry of Foreign Affairs, each allocating €500,000. The Dutch Foundation for Literature is coordinating this support programme on behalf of the six national cultural foundations. Those eligible are artists with a Ukrainian or Russian passport who were living in Ukraine or Russia on 24 February 2022 and are now living in the Netherlands. The programme's resources are not meant to provide long term support for the working practice of these refugee artists. The grant is intended for artists and creatives in all disciplines: film, performing arts, literature, visual arts and other creative industries. Furthermore, the artists should have at least three years of professional work experience in their discipline.

- **Funding:** The maximum grant per artist is € 9,000. The grant must be for the benefit of the artist. In its application, the organisation can add a small percentage of implementation costs, a maximum of 10 percent of the grant (so if the application is for a maximum grant of € 9,000, the extra implementation costs can be € 900 maximum). The costs and expenses need to be justified in the budget that is submitted with the application. This financial support can serve as a contribution towards the costs of, for example, a project, tour or a residency in collaboration with a Dutch cultural organisation. Artists can also use the grant to finance a residence or studio space, for example, or purchase aids such as equipment, tools or materials, so that they can temporarily continue their work in the Netherlands and as soon as possible start to rebuild their cultural life in Ukraine.
- **Duration:** The programme's resources are not meant to provide long term support for the working practice of these refugee artists. The grant is intended for artists and creatives in all disciplines: film, performing arts, literature, visual arts and other creative industries. Furthermore, the artists should have at least three years of professional work experience in their discipline.
- **How to apply?** Applications must be made by a Dutch legal entity, i.e. a cultural organisation or institution. The legal entity must apply for the grant on behalf of and with consent of the artist. A legal entity can be a vereniging (association), stichting (foundation), NV (public limited company) or BV (private limited company). Public legal entities, such as universities or municipalities, can also submit applications. The legal entity can apply for a grant for individual artists (a maximum of three per organisation), in which case a separate application must be made for each of them. The other option is to apply for a grant for a group of artists (perhaps a collective, band or ensemble, or a group such as a dance or theatre company) who work together on projects and plans (for example an exhibition, tour or performance), in which case the application must demonstrate that there is an ongoing collaboration between the members of the group. Applications must be made online, using the application form on [the Dutch page](#). Applications can be submitted only in Dutch or English.
 - The decision will follow within four weeks of receipt of a complete application, consisting of a fully filled application form, a project description (max. 500 words), a cv/biography of the artist (max. 500 words per artist) and a budget.
 - If the application is incomplete, the applicant will be informed. The applicant will then be given two weeks to provide the missing documentation. Applications will be processed in the order in which they are received.
- **Contact:** If you have questions, please contact us by e-mail at e.prakken@letterenfonds.nl

Scholars at Risk Network – Host a Scholar

- **Deadline:** n.n.
- **Eligibility:** SAR invites member institutions to welcome threatened scholars temporarily to campus as professors, researchers, lecturers, visiting scholars, post-docs, graduate fellows or students. Scholar candidates are nominated to SAR by member institutions or partners, or apply directly. Materials for qualifying candidates are circulated to Network members via private mailing lists, and members are encouraged to contact SAR for additional information, review this information, and consider hosting a visitor whenever a suitable candidate is

identified. Network members always retain final selection authority over whether to invite any candidate and over which candidates to consider. Network members are also encouraged to identify candidates themselves through their faculty and other links by nominating cases to SAR.

- **Funding:** Each visit is arranged on a case-by-case basis, with the exact terms of the visit adjusted according to the needs and abilities of the scholar and of the inviting institution. SAR asks host institutions, wherever possible, to identify funding to support the visit. Funding sources include central administration, departments, teaching funds, scholarships, private donors, community groups and foundations. SAR will assist interested hosts in identifying potential funding sources.

Scholars at Risk Network – Remote Fellowships

- **Deadline:** n.n.
- **Eligibility:** Universities within the Scholars at Risk (SAR) network have historically created positions of temporary academic refuge on campus for SAR scholars, creating over 1200 positions to date and allowing scholars to leave the country in which they face risk. However, not all SAR scholars are able to leave their country and travel for a position due to government or other restrictions. For example, starting in 2016 the Turkish government cancelled the validity or revoked the passports of thousands of scholars in the country, preventing them from leaving after they were dismissed from their academic positions. After learning about the travel restrictions faced by scholars from Turkey, several universities within our network mobilized to provide opportunities for those SAR scholars who cannot travel (many times in addition to hosting scholars on campus).
- **Funding:** Remote fellowships can be paid or unpaid. The universities created remote fellowships through which a SAR scholar can:
 - receive a university email address;
 - access library and database resources through this email address/university affiliation;
 - publish work using the university's affiliation;

- in some instances, connect with mentors or teach remote classes at the host university; and
- re-engage with academia after being pushed outside the university space, sometimes for years.
- **How to apply?** Any universities interested in learning more about remote opportunities for SAR scholars are invited to contact scholarsatrisk@nyu.edu

Dutch Foundation for Literature – Support for Ukrainian and Russian artists in the Netherlands

- **Deadline:** 15 November 2022
- **Eligibility:** The Dutch government has announced that it will allocate 1 million euros to support Ukrainian and Russian artists who were forced to flee their countries after the Russian attack on Ukraine and are living in the Netherlands. This project is financed by the Ministry of Education, Culture and Science and the Ministry of Foreign Affairs, each allocating €500,000. The Dutch Foundation for Literature is coordinating this support programme on behalf of the six national cultural foundations. Those eligible are artists with a Ukrainian or Russian passport who were living in Ukraine or Russia on 24 February 2022 and are now living in the Netherlands. The programme's resources are not meant to provide long term support for the working practice of these refugee artists. The grant is intended for artists and creatives in all disciplines: film, performing arts, literature, visual arts and other creative industries. Furthermore, the artists should have at least three years of professional work experience in their discipline.
- **Funding:** The maximum grant per artist is € 9,000. The grant must be for the benefit of the artist. In its application, the organisation can add a small percentage of implementation costs, a maximum of 10 percent of the grant (so if the application is for a maximum grant of € 9,000, the extra implementation costs can be € 900 maximum). The costs and expenses need to be justified in the budget that is submitted with the application. This financial support can

serve as a contribution towards the costs of, for example, a project, tour or a residency in collaboration with a Dutch cultural organisation. Artists can also use the grant to finance a residence or studio space, for example, or purchase aids such as equipment, tools or materials, so that they can temporarily continue their work in the Netherlands and as soon as possible start to rebuild their cultural life in Ukraine.

- **Duration:** The programme's resources are not meant to provide long term support for the working practice of these refugee artists. The grant is intended for artists and creatives in all disciplines: film, performing arts, literature, visual arts and other creative industries. Furthermore, the artists should have at least three years of professional work experience in their discipline.
- **How to apply?** Applications must be made by a Dutch legal entity, i.e. a cultural organisation or institution. The legal entity must apply for the grant on behalf of and with consent of the artist. A legal entity can be a vereniging (association), stichting (foundation), NV (public limited company) or BV (private limited company). Public legal entities, such as universities or municipalities, can also submit applications. The legal entity can apply for a grant for individual artists (a maximum of three per organisation), in which case a separate application must be made for each of them. The other option is to apply for a grant for a group of artists (perhaps a collective, band or ensemble, or a group such as a dance or theatre company) who work together on projects and plans (for example an exhibition, tour or performance), in which case the application must demonstrate that there is an ongoing collaboration between the members of the group. Applications must be made online, using the application form on [the Dutch page](#). Applications can be submitted only in Dutch or English.
 - The decision will follow within four weeks of receipt of a complete application, consisting of a fully filled application form, a project description (max. 500 words), a cv/biography of the artist (max. 500 words per artist) and a budget.
 - If the application is incomplete, the applicant will be informed. The applicant will then be given two weeks to provide the missing documentation. Applications will be processed in the order in which they are received.
- **Contact:** If you have questions, please contact us by e-mail at e.prakken@letterenfonds.nl
