This overview only includes income and expenses related to the bank account of the UNE Association NGO, as registered in the Netherlands. Apart from the mentioned income and expenses, the NGO has worked with inkind support and grants for speaker/editorial fees/winter-school fellowships and other forms of support to arts and academic professionals and students at risk; these flow directly from sponsoring organizations to the mentioned at-risk communities. NB UNE works primarily with inkind and grant support and the NGO does not actively solicit donations.
